

Connecting Home and School

Strategies for Effective Communication Between Parents and Teachers

Help the teacher get to know your child as a person

- Study habits/routines they follow at home
- Family/medical/social situations that may impact performance in school
- Share insights on:
 - Child's strengths and challenges
 - Child's talents and interests
 - Strategies that motivate your child

Approach conversations as a partner with your child's teacher

- Ask what you can do to assist teacher from home
- As needed, ask for help and strategies you can use at home
- Set date to follow up after you and/or teacher try new strategies
- Share positive changes/growth/experiences you see in child's learning
- Know what's being covered in class so you can support your child's learning
